

# 铸造技术

## Foundry Technology

您正在寻找最优的解决方案? 请携手L&A,共创美好未来!  
If you are seeking the best solution,shape your future with L&A.

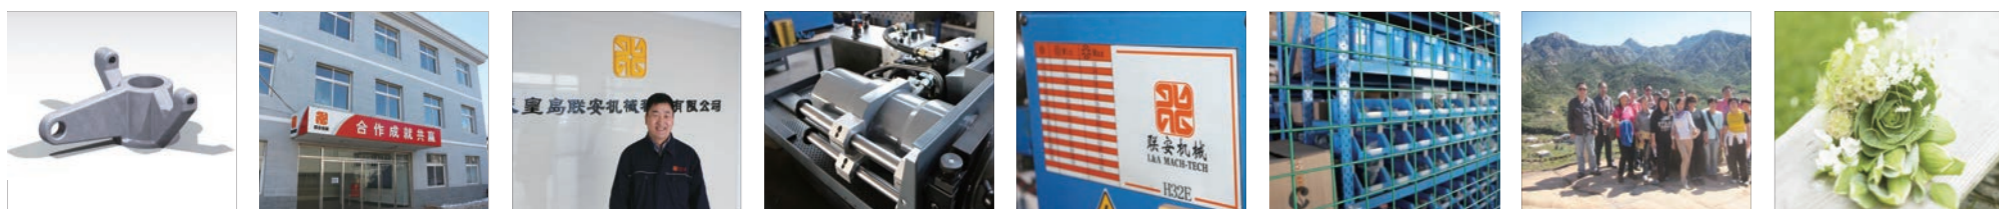

L&A 公司的主导理念! 从管理人员到学徒工, 更包括与客户、合作伙伴和供货商之间的关系中, 这一理念贯穿始终, 无处不在。我们的战略目标之一是——让我们的客户成为行业最佳! 同时, 我们还十分注重发展可持续的、成功的伙伴关系! L&A,成就您的未来!

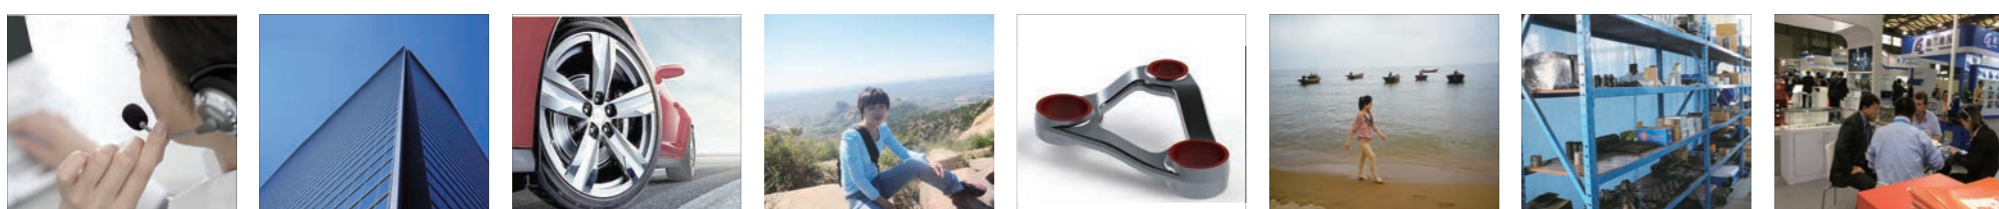

L&A PHILOSOPHY  
It's fostered and followed:from the management to apprentices,and in the relationships with customers,partners,and suppliers.One of our strategic goals is to make our customers the best in their fields! L&A fill your future!

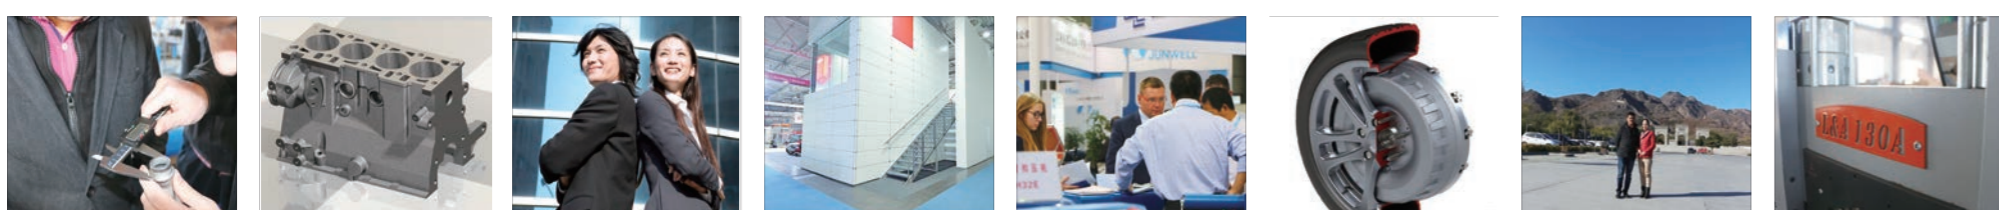

在技术和人文方面的最佳创意型企业!  
The best ideas factory—for technology and people.

全面的专业技能 **Competence From A single source**  
创建于2007年联安是一家面向各种不同工业领域的、领先的机械和设备制造企业, L&A 公司也是一家高速发展的成长型企业, 我们的工程技术人员先后接触并深入剖析国内外的多种低压、重力铸造设备, 在吸收同行业设备优点基础上成功开发了多种低压及重力设备, 从而积累了丰富的实战经验。在汽车、航空航天、船舶、电力、工程机械等工业领域中致力于为客户量身打造完整的解决方案, 集成国内外的最佳工艺技术。

L&A ,is founded in 2007, a leading machine and plant engineering company for a wide range of industries, and also is a quickly developing enterprise. Our engineers has a great experience in casting industry while takes advantage of low pressure caster and gravity cast machine both China and international.  
L&A can proved an ideal and complete technology solutions and the products manufactured by our machinery is widely used in the industrial field of automotive, aerospace, shipbuilding, electric power and engineering etc.

## 合作成就共赢！ WIN-WIN COOPERATION!

中国——秦皇岛

L&A 总部位于世界铝轮毂制造中心——中国 秦皇岛。公司从成立之初，我们的研发投入从未间断！每一个创新产品都体现了我们不拘泥于传统、不断发掘新潜力的毅力、冒险精神及勇气。我们能够为客户提供从设计到生产，从装配到服务，直至自动化数据分析的全面专业知识！

QINHUANGDAO——China

L & A headquarter is located in the wheel manufacture center Qinhuangdao, We invest continuously in reaserch and development. Behind the resulting innovative products lies a great deal of perseverance, readiness to take risks, and the courage to depart from conventional paths in order to exploit new potential. We offer our customers comprehensive know-how extending from concept design through the production, assembly and service right up to the automated data analysis.

低压铸造机 D8090  
Low pressure casting machine

- 专为铝轮毂铸造而设计 A special design for aluminium wheel casting
- 可铸造13-24寸轮毂 13-24 inches of wheels can be cast
- 上模行程595-1795mm Top mould travel is 595-1795mm
- 边模开档行程890-1290mm Side mould travel is 890-1290mm
- 保温炉1000Kg/800Kg Furnace capacity is 1000kgs/800kgs
- 模具90° 安装 Mould can be installed at 90°
- 16路风/16路水冷却 16 water /16 air cooling
- 保温炉可升降移出 Furnace can tilt lift and move in/out
- 高精度压力自动控制 Precise automatic pressure control
- 全自动循环 Full automatic drive
- 伺服液压驱动 Servo motor hydraulic drive
- 自动脱模 Automatic rejector
- 自动取件 Automatic Catcher
- 生产效率高 High production efficiency in casting
- 高刚性;高强度;高可靠性 A high rigidity /Strength / reliability

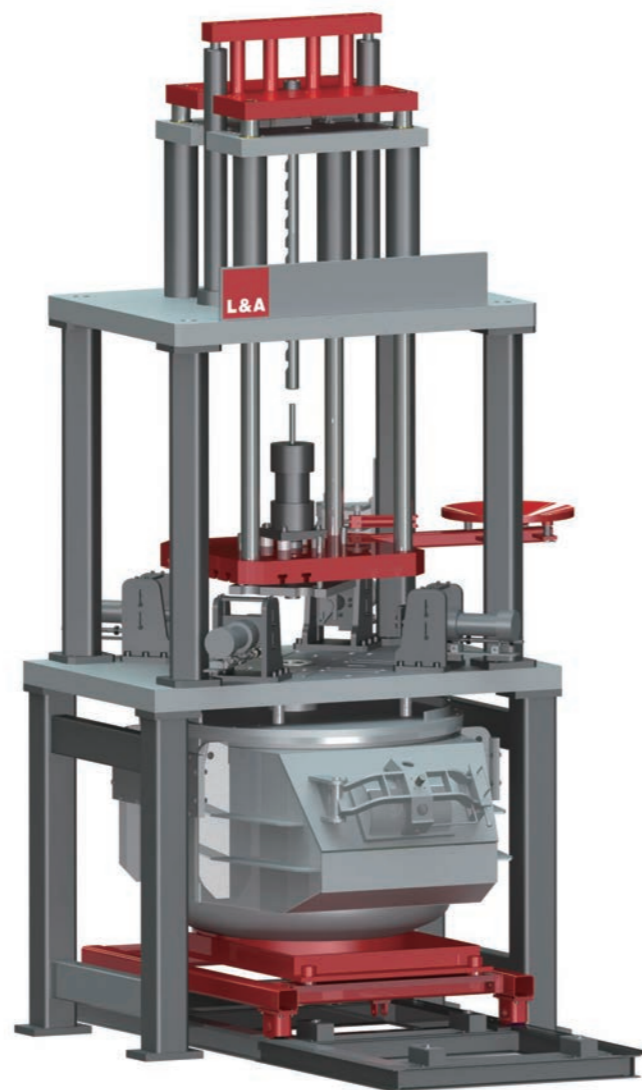

-低压铸造机  
-差压铸造机  
-保温炉换炉系统

-LOW PRESSURE CASTING MACHINES  
-COUNTER PRESSURE CASTING MACHINES  
-FURNACE SHUTTLE SYSTEMS

低压铸造机 D8045  
Low pressure casting machine

- 专为铝轮毂铸造而设计 A special design for aluminium wheel casting
- 可铸造13-24寸轮毂 13-24 inches of wheels can be cast
- 上模行程495-1595mm Top mould travel is 495-1595mm
- 边模开档行程728-1128mm Side mould travel is 728-1128mm
- 保温炉1000Kg/800Kg Furnace capacity is 1000kgs/800kgs
- 模具45° 安装 Mould can be installed at 45°
- 16路风/16路水冷却 16 water /16 air cooling
- 保温炉可升降移出 Furnace can tilt lift and move in/out
- 高精度压力自动控制 Precise automatic pressure control
- 全自动循环 Full automatic drive
- 伺服液压驱动 Servo motor hydraulic drive
- 自动脱模 Automatic rejector
- 自动取件 Automatic Catcher
- 生产效率高 High production efficiency in casting
- 高刚性;高强度;高可靠性 A high rigidity /Strength / reliability
